On June 25th 2020 from 11:30 - 2:00 we are having a unique event. The first of its kind drive-thru trade show. During the event we will have our staff demonstrate to you our machinery and capabilities in the comfort and safety of your car. The event will even include a complimentary food truck that will be delivered to your car! Bring your business card and your parts marking needs to this event - we will solve them!

Marking Innovation Since 1956
Laser · Pin Marking · Electrochemical Etching  
Traceability · Steel Stamp · Vision · Custom Solutions

Laser marking provides flexibility, high efficiency, and overall robustness for numerous applications.  
Dot Peen marking is composed of a stylus that makes a series of dots on a material’s surface.

IT IS ELECTRIFYING!!!
Electrochemical Etching is a controlled corrosion of a metallic surface via electric current.  
Steel stamps and tooling are precision ground and hardened to precise limits to create uniform legibility and consistent quality.

YOU WILL NOT BELIEVE TRACE-O-VISION!!!  
Track your parts throughout the entire manufacturing life cycle.  
Swensons food truck safely delivered to your car.

50/50 Raffle & Door Prizes
